

Basic Training in Energy Emission Analysis

January 13 and 14, 2018

Are you an energy healer? Are you a Yoga or TaiQi teacher, or are you working with people and energies? Or are you a doctor who likes to have an holistic in-depth look at your clients?

Are you looking for a more efficient way to capture the energetic state of your client in an instant? Come and join us for a unique seminar to learn all about Kirlian photography. [Click here](#) for a brochure with more information.

A special camera will capture the energetic state on a Kirlian photo where imbalances can be seen immediately. The insights from the photo taken can be used for consultation and for further treatments - whether this is coaching, acupuncture, massage, colourpuncture or other energy healing methods.

The interpretation of the image is based on a precise topography, called Energy Emission Analysis, EEA. It is based on the research of German naturopath Peter Mandel.

The benefits of Kirlian photography include

- quick recording of the overall health & identification of blockages
- capture the energetic patterns may these be hormonal, inflammatory or even degenerative
- analysis of the energetic disturbances in organ and skeletal systems
- making stress visible and its effects on body and mind
- tracing birth traumas which still have significance today
- capture weaknesses and strengths
- targeted therapy & accurate therapy control

The Instructor

George is a Naturopath with over 25 years of experience. He uses EEA photos as a basis for all his consultations and treatments. He is an official senior lecturer of Esogetics, currently teaching in Europe and China and working in a clinic in northern Germany.

This is the only time George will ever present this course in New Zealand. Please take advantage and join us for the weekend. The course is going to be held in Mission Bay. investment is \$ 700.
